COMMONWEALTH OF PENNSYLVANIA

July 20, 1972

SUBJECT: Review of documents concerning the
proposed plugging of three waste disposal
wells belonging to the Hammermill Paper
Company, Erie, Pennsylvania

TO: Carlyle W. Westlund
Ground Water Section
Division of Water Quality
Department of Environmental Resources

FROM: William G. McGlade
Environmental Geologist
Environmental Geology Division
Topographic and Geologic Survey
Department of Environmental Resources

I have reviewed the documents developed by David A. Waldron and
Assoc., Inc. for the Hammermill Paper Company.

I am satisfied that they have compiled in detail all of the
information that we originally requested. In addition, I believe
that the plugging procedures are adequate to protect the ground
water of the area.
